Disclaimer

This companion guide for the ANSI ASC X12N 276/277 transaction has been created for use in conjunction with the standard Implementation Guide. It should not be considered a replacement for the Implementation Guide, but rather used as an additional source of information. The companion guide contains data clarifications derived from specific business rules that apply exclusively to Medicaid processing for Washington State DSHS. The guide also includes useful information about sending and receiving data to and from the ProviderOne system.

Revision History

Documented revisions are maintained in this document through the use of the Revision History Table shown below. All revisions made to this companion guide after the creation date are noted along with the date, page affected, and reason for the change.

Revision Level	Date	Page	Description	Change Summary
WAMMIS-CG276-277-00-01	06/09/08		Initial Document

1 Introduction

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA, Title II) includes requirements that national standards be established for electronic health care transactions, and national identifiers for providers, health plans, and employers. This requires Washington State Department of Social and Health Services (DSHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions between covered entities (health care providers, health plans, and healthcare clearinghouses).

The intent of these standards is to improve the efficiency and effectiveness of the nation's health care system by encouraging widespread use of electronic data interchange standards in health care. The intent of the law is that all electronic transactions for which standards are specified must be conducted according to the standards. These standards were not imposed arbitrarily but were developed by processes that included significant public and private sector input.

1.1 Document Purpose

Companion Guides are used to clarify the exchange of information on HIPAA transactions between the DSHS ProviderOne system and its trading partners. DSHS defines trading partners as covered entities that either submit or retrieve HIPAA batch transactions to and from ProviderOne.

This Companion Guide provides information related to electronic submission of 276/277 transactions to DSHS by approved trading partners. This Companion Guide is intended for trading partner use in conjunction with the ANSI ASC X12N National Implementation Guides listed below. The ANSI ASC X12N 276/277 Implementation Guides can be accessed at <http://www.wpc-edi.com>.

- ASC X12N 276/277 (004010X093) Combined
- ASC X12N 276/277 (004010X093A1) (Addenda)

1.1.1 Intended Users

Companion Guides are intended to be used by members/technical staff of trading partners who are responsible for electronic transaction/file exchanges.

1.1.2 Relationship to HIPAA Implementation Guides

Companion Guides are intended to supplement the HIPAA Implementation Guides for each of the HIPAA transactions. Rules for format, content, and field values can be found in the Implementation Guides. This Companion Guide describes the technical interface environment with DSHS, including

connectivity requirements and protocols, and electronic interchange procedures. This guide also provides specific information on data elements and the values required for transactions sent to or received from DSHS.

Companion Guides are intended to supplement rather than replace the standard Implementation Guide for each transaction set. The information in these documents is not intended to:

- Modify the definition, data condition, or use of any data element or segment in the standard Implementation Guides.
- Add any additional data elements or segments to the defined data set.
- Utilize any code or data values that are not valid in the standard Implementation Guides.
- Change the meaning or intent of any implementation specifications in the standard Implementation Guides.

1.2 Transmission Schedule

N/A

2 Technical Infrastructure and Procedures

2.1 Technical Environment

2.1.1 Communication Requirements

This section will describe how trading partners can send 276/277 transactions to DSHS using 2 methods:

- Secure File Transfer Protocol (SFTP)
- ProviderOne Web Portal

2.1.2 Testing Process

Completion of the testing process must occur prior to submitting electronic transactions in production to ProviderOne. Testing is conducted to ensure the following levels of HIPAA compliance:

1. Level 1 – Syntactical integrity: Testing of the EDI file for valid segments, segment order, element attributes, testing for numeric values in numeric data elements, validation of X12 or NCPDP syntax, and compliance with X12 and NCPDP rules.
2. Level 2 – Syntactical requirements: Testing for HIPAA Implementation Guide-specific syntax requirements, such as limits on repeat counts, used and not used qualifiers, codes, elements and segments. It will also include testing for HIPAA required or intra-segment situational data elements, testing for non-medical code sets as laid out in the Implementation Guide, and values and codes noted in the Implementation Guide via an X12 code list or table.
3. Level 7 – DSHS defined custom rules. All transactions will be validated against DSHS defined custom rules as specified in the Transaction Specification section.

Additional testing may be required in the future to verify any changes made to the ProviderOne system. Changes to the ANSI formats may also require additional testing. Assistance is available throughout the testing process.

Trading Partner Testing Procedures

1. ProviderOne companion guides and trading partner enrollment package are available for download via the web at <http://maa.dshs.wa.gov/dshshipaa>
2. The Trading Partner completes the Trading Partner Agreement and submits the signed agreement to DSHS.

Submit to: Provider Enrollment

PO Box 45562

Olympia, WA 98504-5562

****For Questions call 1-800-562-3022 option 2, then option 5****

3. The trading partner is assigned a Submitter ID, Domain, Logon User ID and password.
4. The trading partner submits all HIPAA test files through the ProviderOne web portal or Secure File Transfer Protocol (SFTP).
 - Web Portal URL: <https://www.waproviderone.org/edi>
 - SFTP URL: <sftp://ftp.waproviderone.org/>
5. The trading partner downloads acknowledgements for the test file from the ProviderOne web portal or SFTP.
6. If ProviderOne system generates a positive TA1 and positive 997 acknowledgement, the file is successfully accepted. The trading partner is then approved to send 276/277 HIPAA files in production.
7. If the test file generates a negative TA1 or negative 997 acknowledgment, then the submission is unsuccessful and the file is rejected. The trading partner needs to resolve all the errors that are reported on the negative TA1 or negative 997 and resubmit the file for test. Trading partners will continue to test in the testing environment until they receive a positive TA1 and positive 997.

2.1.3 Who to contact for assistance

- Telephone Number: 1-800-562-3022
 - Select option 2
 - Select option 4
- All calls result in the assignment of a Ticket Number for problem tracking
- Hours: 8:00 AM – 5:00 PM Pacific Standard Time, Monday through Friday
- Information required for initial call:
 - Topic of Call (setup, procedures, etc.)
 - Name of caller
 - Submitter ID Number
 - Organization of caller
 - Telephone number of caller
 - Nature of problem (connection, receipt status, etc.)
- Information required for follow up call(s):

- Assigned Ticket Number

2.2 Upload batches via Web Interface

Once logged into the ProviderOne Portal, select the Admin Tab and the following options will be presented to the user:

The screenshot shows the ProviderOne web interface. At the top, there is a navigation bar with tabs: My Inbox, Admin, Provider, Claims, Reference, Client, TPL, Drug Rebate, Rate Setting, PA, Managed Care, Cash Receipt, and Payroll. Below the tabs, a welcome message reads: "Welcome Administrator, Super. You have logged-in with Super Administrator profile." The path is shown as "Path: MyInbox". A "Links" dropdown menu is set to "--Select--".

Below the navigation bar, a "Menu" dropdown is open, displaying a list of options:

Choose an Option.	
Domain Maintenance	Option to Maintain the Domain
User Maintenance	Option to Maintain the Users in the System
OrgUnit Maintenance	Option to Maintain Organization Units
AuditTrail Maintenance	Option to Maintain Audit Trail
Policy Impact	Impact of Role/Profile on various entities.
Data Dictionary Online	Option to view Data Dictionary Information
Broadcast Message	Create Broadcast Message
Alert Library Maintenance	Alert Library Maintenance
HIPAA	To Manage HIPAA transactions
Reports	Reports
Security Setup	Setting up the profiles and Roles
List of Active Users	To List Active Users as of today in System.
Interface Maintenance	Interface Maintenance

At the bottom of the interface, the footer displays: "Page ID: pgSubMenu(Menu)", "Environment: SysTst", "Server Time: 12/14/2007 11:27:55 EST", and a status bar with "Done", "Local intranet", and "100%" zoom.

Click on the HIPAA option to manage the HIPAA transactions.

In the HIPAA Transaction Management screen, the user can Upload file and Retrieve Acknowledgement/Response as shown below:

ProviderOne

My Inbox Admin Provider Claims Reference Client TPL Drug Rebate Rate Setting PA Managed Care Cash Receipt Payroll

Welcome Administrator, Super - You have logged-in with Super Administrator profile. Links: --Select--

Path: MyInbox

Retrieve Acknowledgement/Response	To retrieve Acknowledgement and Responses

Page ID: pgSubMenu(Menu) Environment: SysTst Server Time: 12/14/2007 11:28:35 EST

Local intranet 100%

In order to upload a file, the following steps are followed:

Click on the Upload button to upload a HIPAA file

This screenshot shows the ProviderOne application interface. At the top, there is a navigation bar with tabs for My Inbox, Admin, Provider, Claims, Reference, Client, TPL, Drug Rebate, Rate Setting, PA, Managed Care, Cash Receipt, and Payroll. Below the navigation bar, a welcome message reads: "Welcome Administrator, Super. You have logged-in with Super Administrator profile." To the right of this message is a "Links" dropdown menu set to "--Select--". Below the welcome message, there is a "Menu" section with a "Close" button and an "Upload" button. A message below the menu says: "Please click on the Upload button to upload your file." At the bottom of the interface, there is a status bar with the following information: "Page ID: pgBatchAttachmentResponse(Admin)", "Environment: SysTst", and "Server Time: 12/14/2007 11:29:06 EST". The status bar also includes a "Local intranet" icon and a "100%" zoom level.

On file upload page click on the Browse button to attach HIPAA file from local file system. After selecting the file from the local file system, press OK to start the upload.

This screenshot shows the "Attachment" section of the application. It contains a label "Attachment:" followed by a text input field. Below the text input field, there is a label "Please select the file to be uploaded:" followed by a "Browse" button. The status bar at the bottom of the interface shows "Page ID: dlglFileAttachment(Common)" and "Done".This screenshot shows the status bar of the application. It contains a "Page ID: dlglFileAttachment(Common)" and a "Done" label. At the bottom right of the status bar, there are "OK" and "Cancel" buttons. The status bar also includes a "Local intranet" icon and a "100%" zoom level.

Once the file is uploaded to the ProviderOne system success/failure message is displayed on the screen along with transmission details.

2.3 Set-up, Directory, and File Naming Convention

2.3.1 SFTP Set-up

Trading partners can contact 1-800-562-3022 for information on establishing connections through the FTP server. Upon completion of set-up, they will receive additional instructions on FTP usage.

2.3.2 SFTP Directory Naming Convention

There would be two categories of folders under Trading Partner's SFPT folders:

1. **TEST – Trading Partners should submit and receive their test files under this root folder**
2. **PROD – Trading Partners should submit and receive their production files under this root folder**

Following folder will be available under TEST/PROD folder within SFTP root of the Trading Partner:

'HIPAA Inbound' - This folder should be used to drop the Inbound files that needs to be submitted to DSHS

'HIPAA Ack' - Trading partner should look for acknowledgements to the files submitted in this folder. TA1, 997 and custom error report will be available for all the files submitted by the Trading Partner

'HIPAA Outbound' – X12 outbound transactions generated by DSHS will be available in this folder

'HIPAA Error' – Any inbound file that is not HIPAA compliant or is not recognized by ProviderOne will be moved to this folder

Folder structure will appear as:

2.3.3 File Naming Convention

The HIPAA Subsystem Package is responsible for assisting ProviderOne activities related to Electronic Transfer and processing of Health Care and Health Encounter Data, with a few exceptions or limitations.

HIPAA files are named:

For Inbound transactions:

HIPAA.<TPId>.<datetimestamp>.<originalfilename>.<dat>

Example of file name: HIPAA.101721500.122620072100.P_1.dat

- <TPId> is the Trading Partner Id
- <datetimestamp> is the Date timestamp
- <originalfilename> is the original file name which is submitted by the trading partner.

For Outbound transactions:

HIPAA.<TPId>.<datetimestamp>.<TxID>.O.<out>

Example of file name: HIPAA.16576000.12262007211315.277.O.out

- <TPId> is the Trading Partner Id
- <datetimestamp> is the Date timestamp
- <TxID> is the Transaction Id.

2.4 Transaction Standards

2.4.1 General Information

HIPAA standards are specified in the Implementation Guide for each mandated transaction and modified by authorized Addenda. Currently, the 276/277 transaction has one Addendum. This Addendum has been adopted as final and is incorporated into DSHS requirements.

An overview of requirements specific to the transaction can be found in the 276/277 Implementation Guide. Implementation Guides contain information related to:

- Format and content of interchanges and functional groups
- Format and content of the header, detailer and trailer segments specific to the transaction
- Code sets and values authorized for use in the transaction
- Allowed exceptions to specific transaction requirements

Transmission sizes are limited based on two factors:

- Number of Segments/Records allowed by DSHS
- DSHS file size limitations

DSHS limits a file size to 50 MB while uploading HIPAA files through the ProviderOne web portal and 100 MB through FTP.

2.4.2 Data Format

Delimiters

The ProviderOne will use the following delimiters on outbound transactions:

- Data element separator - Asterisk (*)
- Sub-element Separator - colon (:)
- Segment Terminator - Tilde (~)

Dates

The following rules apply to any dates in this transaction:

- All dates will be formatted according to Year 2000 compliance, CCYYMMDD, except for the ISA09 element where the date format is YYMMDD.
- The only value acceptable for "CC" (century) is 20. The exception to this rule is for any of the Date of Birth values.
- Time is in military time format, 1 to 24 to indicate hours and 00 to 59 to indicate minutes and/or seconds. ISA10 and GS05 elements are formatted HHMM (ie 2115 defines the time of 9:15 p.m).
- No spaces or character delimiters should be used in presenting dates or times.
- Dates that are logically invalid (e.g. 20071301) are rejected.

Field Length

HIPAA regulations specify field lengths for all of the data elements of the 276/277 transaction. For some of these data elements, ProviderOne processes fewer characters than the maximum allowed. The Transaction Specifications in section 3 display the ProviderOne field lengths.

Phone Numbers

Phone numbers are presented as contiguous number strings, without dashes or parenthesis markers. For example, the phone number (800) 555-1212 should be presented as 8005551212. Area codes should always be included.

2.4.3 Data Interchange Conventions

When accepting/sending 276/277 transactions from trading partners, DSHS follows standards developed by the Accredited Standards Committee (ASC) of the American National Standards Institute (ANSI). These standards involve Interchange (ISA/IEA) and Functional Group (GS/GE) Segments or "outer envelopes". All 276/277 Transactions should follow the HIPAA guideline. Please refer to the 276/277 Implementation Guide for ISA/IEA envelop, GS/GE functional group and ST/SE transaction specifications. Specific information on how individual data elements are populated by DSHS on ISA/IEA and GS/GE envelopes are shown in the table beginning later in this section.

The ISA/IEA Interchange Envelope, unlike most ASC X12 data structures has fixed field length. The entire data length of the data element should be

considered and padded with spaces if the data element length is less than the field length.

Example of ISA with the entire data length with padded spaces:

```
ISA*00*      *00*      *ZZ*123456789  *ZZ*77045  
*040303*1300*U*00401*000001001*1*T*~
```

DSHS accepts 276 transaction files with single ISA/IEA and GS/GE envelopes. 276 transactions can have multiple ST/SE envelopes within the same GS/GE envelope.

2.4.4 Acknowledgement Procedures

Once the file is submitted by the trading partner and is successfully received by the ProviderOne system, a response in the form of TA1 and 997 acknowledgment transactions will be placed in appropriate folder (on the FTP server) of the trading partner. The ProviderOne system generates positive TA1 and positive 997 acknowledgement, if the submitted HIPAA file meets HIPAA standards related to syntax and data integrity. For files, which do not meet the HIPAA standards a negative TA1 and/or negative 997 are generated and sent to the trading partner.

2.4.5 Rejected Transmissions and Transactions

276 transactions will be rejected if the file does not meet HIPAA standards for syntax, data integrity and structure (Strategic National Implementation Process (SNIP) type 1 and 2). Additionally, the transactions will be validated against DSHS defined custom rules (SNIP type 7) as specified in the Transaction Specification section. Non-compliance of the custom rules will result in rejection of the transaction.

3 Transaction Specifications

The following are Batch and Data Direct Entry (DDE) access methods supported by ProviderOne:

1. Access by ProviderOne Client ID; Required information
 - Provider Id
 - ProviderOne Client ID
 - Date of Service
2. Access by Claim Transaction Control Number (TCN); Required information
 - Provider Id
 - Claim TCN
 - ProviderOneClient ID
 - Date of Service

154	2100D	NM1	01	Entity Identifier Code	Receive 'QC'
155	2100D	NM1	02	Entity Type Qualifier	Receive '1'
155	2100D	NM1	03	Name Last or Organization Name	Receive Subscriber Last Name
155	2100D	NM1	04	Name First	Receive Subscriber First Name
155	2100D	NM1	05	Name Middle	Receive Subscriber Middle Name or Initial if available
155	2100D	NM1	08	Identification Code Qualifier	Receive 'MI'
156	2100D	NM1	09	Identification Code	Receive ProviderOne Client ID
Claim Submitter Trace Number					

157	2200D	TRN	01	Trace Type Code	Receive '2'
158	2200D	TRN	02	Reference Identification	Receive Trace Number submitted on 276 file
Claim Level Status Information					
159	2200D	STC	01-1	Industry Code	Receive Health Care Claim Status Category Code from Code Source 507
159	2200D	STC	01-2	Industry Code	Receive Health Care Claim Status Code from Code Source 508
167	2200D	STC	02	Date	Receive Status Information Effective Date (Date of Inquiry) Date format in CCYYMMDD
167	2200D	STC	04	Monetary Amount	Receive Total Claim Charge Amount
167	2200D	STC	05	Monetary Amount	Receive Claim Payment Amount The amount will be zero if the adjudication process is not completed
167	2200D	STC	06	Date	Receive Adjudication Date Date format in CCYYMMDD
168	2200D	STC	07	Payment Method Code	Receive 'ACH' or 'CHK'
168	2200D	STC	08	Date	Check Issue or EFT Effective Date (Always Mondays) Date format in CCYYMMDD
168	2200D	STC	09	Check Number	Receive Check or EFT Trace Number

Payer Claim Identification Number					
170	2200D	REF	01	Reference Identification Qualifier	Receive '1K'
171	2200D	REF	02	Reference Identification	Receive 21-digit claim Transaction Control Number (TCN)
Institutional Bill Type Identification					
NOTE: Receive this information only for Institutional claims					
172	2200D	REF	01	Reference Identification Qualifier	Receive 'BLT'
173	2200D	REF	02	Reference Identification	Receive 3-digit Type of Bill
Medical Record Identification					
NOTE: Receive this information only if submitted on original claim					
174	2200D	REF	01	Reference Identification Qualifier	Receive 'EA'
175	2200D	REF	02	Reference Identification	Receive Medical Record Number (from 837 2300 loop REF segment)
Claim Service Date					
176	2200D	DTP	01	Date/Time Qualifier	Receive '232'
177	2200D	DTP	02	Date Time Period Format Qualifier	Receive 'RD8'
177	2200D	DTP	03	Date Time Period	Receive Claim Service Date in CCYYMMDD - CCYYMMDD format
Service Line Information					
179	2220D	SVC	01-1	Product/Service ID Qualifier	<p>DSHS may return the following qualifiers:</p> <p>AD HC NU</p>

					<p>DSHS may return the following codes:</p> <p>AD - ADA Procedure Code</p> <p>HC - HCPCS/CPT Procedure Code</p> <p>NU - UB92 (UB04) Revenue Code</p>
180	2220D	SVC	01-2	Product/Service ID	
180	2220D	SVC	01-3	Procedure Modifier	Receive if submitted on the original claim service line
